

RMOUG Mission Statement:

- **To provide, coordinate, or assist educational endeavors relating to Oracle and other technologies.**
- **To collect, post, and disseminate information about Oracle and other related technologies.**
- **To provide a channel of communication between our members and Oracle Corporation or other related technologies.**
- **To foster and facilitate communications between members and other user group organizations.**
- **To support educational opportunities to individuals in the Information Technology field through scholarships, grants, and directed funding.**

Training Days

Training Days is an annual two-day, multi-track, training event. This event showcases the latest in Oracle technologies and techniques. The majority of the presentations are from local members of RMOUG. This event also attracts well-known speakers from around the country. There are novice and advanced topics. Attendees receive a proceedings CD containing all the white papers from the conference. Many vendors are on hand to demonstrate their products and services. Lunch is provided at no additional charge. With all that this annual event offers, it is one of the best Oracle training values available.

Our next Training Days will be held Feb. 11 & 12, 2009 at the Denver Convention Center.

Web Site and List Servers

Established in 1995, RMOUG's World Wide Web site has won many international awards. It has several areas of interest, including membership, up-to-date event information, and links to many other Oracle-related Web sites. It can be accessed at:

<http://www.rmoug.org>

Members also have two list servers available to them:

- Techies@rmoug.org is for technical, non-solicitation messages .
- Misc@rmoug.org is for non-technical messages such as product announcements, job solicitations, etc.

*Reaching the Top with the
Rocky Mountain
Oracle Users Group*

The Rocky Mountain Oracle Users Group (RMOUG), with over 1100 members, is one of the largest locally managed user groups in the world oriented to the Oracle Relational Database and its associated products.

RMOUG SQL>Update: our award winning newsletter, is published quarterly and is distributed as a membership benefit to all RMOUG members. Additionally, several hundred newsletters are distributed to other user groups, at major Oracle conventions, at Front Range universities, and on an on-demand basis. Past issues of the newsletter are posted to the RMOUG Website.

Quarterly Educational

Workshops: are held three times per year (in May, August, and November). Attendance at these meetings averages 100-200 RMOUG members. Each meeting is an all-day affair, usually consisting of four (or more) 75 minute presentations on Oracle-related topics. Additionally, each meeting includes a "general session" in the morning, where RMOUG business is conducted. Each session is separated by a break, during which refreshments are served
